Every person who has had is grippe during the last year should take a course of Pertina. No one need expect perfect recovery unless they do so. The grippe has produced catarrhal inflammation of the whole mucous membrane, and good lealth is impossible until those are restored to a normal condition. This Peruna will do. A great many remedies have been suggested for this condition from time to time, but Peruna appears to be the only remedy that has any substantial value in these cases. It has never failed to give satisfaction during forty years' experience and still occupies the unique position of being the leading (if not the only) specific remedy for the after-effects of la grippe. after-effects of la grippe.

What To Do When Food Don't Agree,
When food don't agree, sensible folks
make a change.
Where all others fall, Grape-Nuts, heing predigested and all nourishment,
succeeds, usually from the first trial.
A holy of Washington says: "My baby,
nineteen months old, had never seen a
well day in her life. She had suffered
from indigestion from the time of her
birth, and it seemed impossible to find
any food to agree with her. She could
keep almost nothing on her stomach, and
her bowels were in such a constipated
condition she suffered a great deal.
"It was then that I tried Grape-Nute
for her, steeping it thoroughly and
straining it, putting a small portion in
each feeding, and it worked "ke a charm.
She began to improve immediately and
gained haif a pound the first week,
"Baby got her indigestion from me, for
my digestive organs have always been
weak. I rely on Grape-Nuts for most of
my food, for there are times when I can
cat nothing else at all but Grape-Nuts.
I am steadily improving and knew it
will entirely cure me in time. I never
have that "tired feeling" any mors. I
eat Grape-Nuts and I feel its effects in
improved mental strength very forcibly."
